---

In this short post I would like to update you on some recent changes in the *MF - Matrix Factorization Techniques for Data Mining* Library.

Recently, the library *MF - Matrix Factorization Techniques for Data Mining* has been moved and renamed. It is now called

*Nimfa - A Python Library for Nonnegative Matrix Factorization*

or short,

***nimfa***

. The latest version with documentation, link to source code and working examples can be found at

[nimfa.biolab.si](http://nimfa.biolab.si)

. Those of you still having old links, are kindly requested to update the new information - you will be automatically redirected to the new site if you visit old page.

Hope you like the new name.

Enjoy.
