

CRY: Commitment Schemes

Written by Marinka

Monday, 04 June 2012 22:23 - Last Updated Wednesday, 30 January 2013 23:42

I have been following the Cryptography and Theory of Coding 2 course this semester (summer 12).

During the course I have been working on the project about [Commitment schemes](#) . Please find below attached the final report produced and a short presentation. Additionally, some homework solutions are attached as well. The language is Slovene, but it is mostly pure math with proofs, so it should not be too difficult to capture the main idea.

Please note these are reports and have not been subject to the usual scrutiny of published papers.

- [Commitment Schemes report \(Slovene\) \(.pdf\)](#)
- [Commitment Schemes presentation \(Slovene\) \(.pdf\)](#)
- HW 1 Solutions (Slovene) (.pdf)
- HW 2 Solutions (Slovene) (.pdf)
- HW 3 Solutions (Slovene) (.pdf)
- HW 4 Solutions (Slovene) (.pdf)
- HW 5 Solutions (Slovene) (.pdf)
- HW 6 Solutions (Slovene) (.pdf)
